

Dear Incoming Kindergarten Parents,

For the past few years, the faculty of St. Patricia have encouraged students to participate in our summer reading activity. Even though most kindergartners are not reading, we still feel they could take part in this enriching experience on their level. I am asking that parents read orally to their children as much as possible. Studies show that reading to your child enhances their reading readiness. As the kindergarten teacher, I feel the following activities will be advantageous and fun for the summer.

- --Each kindergartner will be read 8 books.
- --List all the books on the reading sheet attached. Your signature is required.
- ---The reading journal should be turned in to me by Friday, August 29, 2025

---Please have fun using the frog puppet and bookmark as an incentive to encourage your child to enjoy reading.

Remember if you would like to read more books that is a bonus to your child.

A special treat is planned in September for all students who complete this assignment.

Thank you for your support and cooperation.
Wishing you and your child a wonderful summer!

Mrs. Lang
